Product Summary

The Propeller Adjust is not a replica, but an original high quality mixture as used in light aircraft. (It is constructed according FAA regulations).
The Propeller Adjust interfaces with the Throttle/Mixture/Prop Controller (found in the 'Electronics' category on this site)
When paired with the separate Throttle/Mixture/Prop Controller the product is compatible with FSX/Prepar3d/DCS/X-Plane/MSFS and any other software which supports regular joysticks/gamepads.

Product Description

The Propeller Adjust is not a replica, but an original high quality mixture as used in light aircraft. (It is constructed according FAA regulations). The casing (from quality finished aluminum) has Teflon inner liner for low friction. Features stainless steel end fittings, swivel, and end rod. Furnished with FAA-style Blue knob and fine tuning possibility. Travel: 3-3/8".
