Product Summary

The USB Microcontroller connects directly to your PC via the included USB cable. The controller handles up to 2 servos to control 2 pointers, is equipped with a light bulb (to be regulated by software or the USB Light Controller) and has 2 outputs to switch LEDs on or off.

Product Description

The USB Microcontroller connects directly to your PC via the included USB cable. The controller handles up to 2 servos

to control 2 pointers, is equipped with a light bulb (to be regulated by software or the USB Light Controller) and has 2 outputs to switch LEDs on or off.

An SDK is available which tells you all about how to control the board from your own application in case you would like to use the USB Controller for other purposes than for Microsoft Flight Simulator FS2002, FS2004, FSX and Project Magenta (PM).

For Microsoft Flight Simulator FS2002, FS2004, FSX and Project Magenta (PM) you don't need to program anything. All is "plug-and-play".

You can give the controller up to 64 identities by simply setting a dip switch to build even the largest aircraft panel!

The USB Gauge Controller is part of a new series of Simkits high quality Simulated Aircraft Instruments.

With this controller, you can drive any gauge not equipped with a controller out of the following gauge groups:

Airspeed Indicators Vertical Speed Indicators Engine Instruments Airliner Instruments Helicopter Instruments

Connects to Microsoft Flight Simulator FSX and Lockheed Martin Prepar3d

You can download the Software User Manual (which is the same as for the USB Aircraft Gauge) in PDF format [here](#).

(We recommend to rightclick and download the manual first prior to opening)

List of gauges which can be controlled using the downloadable software:

737 APU for Overhead Panel

737 Cabin Climb

737 Cabin Temp Ctrl. C

737 Cabin Temp. Ctrl . F

737 Crew Oxygen

737 Diff Pressure ALT Cabin Gauge

737 Duct Pressure

737 Flaps Gauge

737 Fuel Temp C

Airspeed Indicator 172

Airspeed Indicator 172

Airspeed Indicator 450 Knots Airliner

Airspeed Indicator Beechcraft Baron

Airspeed Indicator Bell 206B

Airspeed Indicator C182

Airspeed Indicator Cessna Caravan

Airspeed Indicator Extra 300S

Airspeed Indicator F16

Airspeed Indicator Mooney Bravo

Airspeed Indicator R44

Airspeed Indicator Schweizer Sailplane

Airspeed Indicator Sopwith Camel

Airspeed Indicator Voight Corsair

Bell 206B Vertical Speed Indicator

Bell Engine Oil Gauge

Bell Fuel Quantity Gauge

Bell Gas Producer

Bell Load Fuel Gauge

Bell Rotor Power Torque Gauge

Bell Torque Percent Gauge

Bell XMSN Oil Gauge

Carburator Heat R22
